RESEARCH SUMMARY

I spent most of my doctoral education solving problems in the malware domain using machine learning. Some things I worked on include representation/end-to-end learning, adversarial examples/robustness, and explainability/interpretability — all applied to malware. Moving forward, I want to expand into other areas of security, including LLM/agentic security and software/vulnerability analysis. In short, I am interested in research at the intersection of security and artificial intelligence. I am looking for research scientist positions and, eventually, a long and successful career in industry research.

EDUCATION

Doctor of Philosophy (Ph.D.) @Rochester Institute of Technology (RIT) *Aug. 2022 - May 2027*
- Department: Computing and Information Science
- Advised by: Dr. Matthew Wright & Dr. Yin Pan

Bachelor of Science (B.S.) @The College of New Jersey (TCNJ) *Aug. 2018 - May 2022*
- Department: Computer Science
- Minors: Mathematics, Physics

PUBLICATIONS

Under Review

EXPERIENCE

Machine Learning Security Group, RIT *Aug. 2022 – May 2027*
Graduate Research Assistant; advised by Dr. Matthew Wright & Dr. Yin Pan.
- Researched adversarial examples, neural architecture design, and explainable machine learning for malware.

Cybersecurity Division, CACI International *Jun. 2021 – Aug. 2021*
Research Intern; advised by Anand Dinikar & Edward Phelps
- Developed deepfake audio detectors and contributed to forensic analysis of manipulated PDF documents.

Learning Curve Group, TCNJ *Feb. 2021 – May 2022*
Undergraduate Researcher; advised by Dr. Michael Bloodgood.
- Researched active learning and label-efficient machine learning for natural language processing.

Collective Intelligence Group, TCNJ *Jun. 2020 – Feb. 2021*
Undergraduate Research Assistant; advised by Dr. Monisha Pulimood.
- Built a recommendation system to help researchers find under-appreciated publications (NSF REU).

Photonics Group, TCNJ *Dec. 2018 – Feb. 2020*
Undergraduate Researcher; advised by Dr. David McGee.
- Wrote software to control lab hardware (lasers, motors, etc.) for optical microstructure fabrication.

AWARDS & HONORS

Provost's Outstanding Graduate Student Teaching Award, RIT *Apr. 2025*
- Recognized primarily for teaching Advanced Malware Forensics, as well as TA work and mentoring.

NSF Graduate Research Fellowship (GRFP) *Apr. 2024*
- Three years of NSF support for graduate research in science and engineering.

NDSEG Fellowship *Mar. 2024*
- Three years of Department of Defense support for graduate research; declined in favor of the GRFP.

AI Seed Fund Grant, RIT *Jan. 2024*
- Wrote the $5,000 internal grant proposal that launched the research behind an NDSS 2026 paper.

Goldberg-Neff Scholarship, TCNJ *May 2022*
- Awarded to graduating seniors going on to graduate research.

Phi Beta Kappa (honor society), TCNJ *May 2022*
- Inducted into the national honor society for the liberal arts and sciences.

Upsilon Pi Epsilon (honor society), TCNJ *May 2022*
- Inducted into the international honor society for the computing disciplines.

Department of Computer Science First-Year Award, TCNJ *May 2019*
- Awarded by the computer science department to an outstanding first-year student.

Merit Scholarship, TCNJ *Aug. 2018 – May 2022*
- Four-year scholarship awarded to incoming students on academic merit.

Dean's List, TCNJ *Aug. 2018 – May 2022*
- Maintained a GPA above 3.5 in all eight undergraduate semesters.

TEACHING & LEADERSHIP

Instructor, RIT *Jan. 2024 – May 2024*
- Taught a graduate research seminar on Advanced Malware Forensics as sole instructor; overhauled its materials.

Graduate Teaching Assistant, RIT *Aug. 2023 – Dec. 2023*
- Assisted with a graduate research seminar on Human Factors in Security and Privacy.

Project Mentor, RIT *Jan. 2023 – May 2027*
- Mentored 19 B.S. and M.S. students through 7 independent studies and 3 capstone projects.

Founder, Kappa Delta Rho Nu Gamma Chapter, TCNJ *Jan. 2019 – May 2022*
- Established the Nu Gamma Chapter of the Kappa Delta Rho fraternity at TCNJ.

GED Instructor, Oasis – A Haven for Women and Children, Paterson, NJ *Nov. 2017 – May 2018*
- Taught math, science, and English to adults preparing for the General Educational Development (GED) exam.
