RESEARCH INTERESTS

My Ph.D. research develops deep learning methods for malware detection and analysis, including language models trained on executable code, adversarial attacks on malware classifiers, and detectors that generalize across platforms. Going forward, I plan to continue research at the intersection of machine learning and security, with particular interest in the robustness of large language models and their applications to defensive security.

EDUCATION

Doctor of Philosophy (Ph.D.) @Rochester Institute of Technology (RIT) *Aug. 2022 - May 2027*
- Department: Computing and Information Science
- Advised by: Dr. Matthew Wright & Dr. Yin Pan

Bachelor of Science (B.S.) @The College of New Jersey (TCNJ) *Aug. 2018 - May 2022*
- Department: Computer Science
- Minors: Mathematics, Physics

RESEARCH EXPERIENCE

Malware & Machine Learning, RIT *Aug. 2022 – May 2027*
Graduate Research Assistant; advised by Dr. Matthew Wright & Dr. Yin Pan.
- Researched ML for malware detection with researchers at Google, Ariel University, and Queen's University Belfast.

Cybersecurity Division, CACI International *Jun. 2021 – Aug. 2021*
Research Intern
- Researched deepfake audio detection for US Department of Defense (DoD) cybersecurity applications.

Learning Curve Group, TCNJ *Feb. 2021 – May 2022*
Undergraduate Researcher; advised by Dr. Michael Bloodgood.
- Researched active learning stopping methods for low-resource text classification (ICSC 2022).

Collective Intelligence Group, TCNJ *Jun. 2020 – Feb. 2021*
Undergraduate Research Assistant (REU, NSF-funded); advised by Dr. Monisha Pulimood.
- Built a hybrid machine learning recommendation system for academic literature (SIGCSE 2021 poster).

Photonics & Materials Science Group, TCNJ *Dec. 2018 – Feb. 2020*
Undergraduate Researcher; advised by Dr. David McGee.
- Researched optical microstructures; wrote APIs for laboratory hardware and GUI applications for experiments.

FELLOWSHIPS & AWARDS

Provost's Outstanding Graduate Student Teaching Award, RIT *Apr. 2025*
NSF Graduate Research Fellowship (GRFP) *Apr. 2024*
NDSEG Fellowship (declined) *Mar. 2024*
AI Seed Fund Grant, RIT *Jan. 2024*
Goldberg-Neff Scholarship for graduate research, TCNJ *May 2022*
Phi Beta Kappa; Upsilon Pi Epsilon (CS Honor Society), TCNJ *May 2022*
Department of Computer Science First-Year Award, TCNJ *May 2019*
Four-Year Merit Scholarship, TCNJ *Aug. 2018 – May 2022*
Dean's List, all eight semesters, TCNJ *Aug. 2018 – May 2022*

TEACHING, MENTORING & LEADERSHIP

Instructor, RIT *Jan. 2024 – May 2024*
- Taught graduate research seminar on Advanced Malware Forensics.

Graduate Teaching Assistant, RIT *Aug. 2023 – Dec. 2023*
- Graduate research seminar on Human Factors in Security and Privacy.

Research Mentor, RIT *Jan. 2023 – Present*
- Mentored 19 students: 7 one-on-one independent studies (5 B.S., 2 M.S.) and 3 capstone teams (12 B.S.).

Lead Undergraduate Researcher, TCNJ *Aug. 2021 – May 2022*
- Student lead among undergraduate researchers in the Learning Curve Group.

Founder, Kappa Delta Rho Nu Gamma Chapter, TCNJ *Jan. 2019 – May 2022*
- Established the Nu Gamma Chapter of the Kappa Delta Rho fraternity at TCNJ.

GED Instructor, Oasis – A Haven for Women and Children, Paterson, NJ *Nov. 2017 – May 2018*
- Taught math, science, and English to adults preparing for the General Educational Development (GED) exam.

SKILLS

ML:	PyTorch, Hugging Face (Transformers, Datasets), scikit-learn, TensorFlow, Captum
Security:	IDA Pro, Ghidra, radare2, OllyDbg, pefile, LIEF, Capstone
Languages:	Python, C, C++, Rust, Java, R, MATLAB, Mathematica
Systems:	Linux, SLURM / HPC clusters, Git, LaTeX
